30min Mind Quiz

It is decided to base the fine for speeding in a built-up area as follows,

- User should enter distance and time.
- System should calculate speed.
- If speed less than 30mph, don't have fine
- Rs.5000 if the speed is between 31 and 40 mph
- Rs.7500 if the speed is between 41 and 50 mph
- Rs.10000 if he speed is above 50 mph

Write a JAVA program to calculate the fine.
