30min Mind

When the user inputs their birth year, the program should calculate and print the user's age, Ordinary Level (OL) exam year, and Advanced Level (AL) exam year as follows. [Demo Video](#)

```
C:\Windows\SYSTEM32\cmd.exe

        +-------------------------------+
        |        Exam Year Calculator       |
        +-------------------------------+

        Enter your Birth Year: 2001

        Hello, User!
        You are 22 years old.

        Your OL Year is : 2017
        Your AL Year is : 2020

        Thank you for participating!
        Have a great day!
